PROFESSIONAL SUMMARY

Highly competitive Engineering Student and Full-Stack Developer with a proven track record of placing **National Rank #9 at Techfest, IIT Bombay** and winning **1st Place at TechPravartan 2025**. Proficient in engineering responsive web systems and building agile software applications using **Python, SQL, React.js, and Firebase**. Recognized for high-velocity product execution, collaborative team leadership, and rapidly deploying real-world solutions under intensive competitive timelines.

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript
Web Development: React (Vite), HTML5, CSS3, Responsive UI/UX Design
AI & Automation: Prompt Engineering, LLM Integration, Machine Learning Fundamentals
Tools & Dev: Git, GitHub, REST APIs, Microsoft 365 Copilot, Linux, VS Code

PROFESSIONAL EXPERIENCE

Full-Stack Engineering Lead

Jul 2025 – Aug 2025

- Developed "Arogya-Vahini" using React.js, Node.js, and Firebase, eliminating critical paper-record loss via cross-platform data synchronization.
- Secured 1st Place at TechPravartan 2025 by architecting a high-performance referral MVP under a strict 24-hour hackathon constraint.

Data Science & Software Engineer Intern | Cognifyz Technologies

Dec 2025 – Jan 2026

- Architected scalable ML inference pipelines using Python and SQL, optimizing multi-source preprocessing to improve data-readiness by 15%.
- Engineered predictive models and optimized database queries, reducing system processing latency while maintaining strict data-integrity constraints.

Official Campus Ambassador (IIT Bombay)

Jun 2026 – Present

- Achieved Rank #9 on the National Leaderboard, securing elite Diamond League status out of thousands of technical applicants nationwide.
- Spearheaded regional outreach strategies, scaling developer platform onboarding by 25% through automated data-driven campaigns.

PROJECTS

Arogya-Vahini (Universal Rural Health Vault)

React.js, Node.js, Firebase, JavaScript, CSS3

- A secure digital application built with React.js and Firebase that prevents paper-record loss in rural areas by synchronizing medical history for instant offline-to-online access.

TechPravartan 2025 MVP (1st Place Winner)

React.js, JavaScript, Tailwind CSS, REST APIs

- A functional, full-stack web platform built from scratch in 24 hours to solve automated resource tracking, securing 1st place among top competing college teams.

AI-Powered Predictive Analysis Pipeline

Python, SQL, Pandas, NumPy, Scikit-Learn

- A data engineering system built with Python and SQL that automatically cleans raw multi-source data and predicts customer trend shifts with 88% accuracy.

ACHIEVEMENTS & CERTIFICATIONS

- National Rank #9 (IIT Bombay):** Achieved elite Diamond League status out of thousands of candidates nationwide for top-tier technical festival execution. Built and refined a functional solution through rapid brainstorming, iteration, and hands-on development.
- 1st Place Winner (TechPravartan 2025):** Won top honors by architecting and deploying functional full-stack MVP applications under intensive 24-hour timelines.
- HackAura 2026 National Finalist:** Led a 4-person engineering team to design and pitch the "Arogya-Vahini" healthcare platform under aggressive national hackathon constraints.

EDUCATION

B.Tech in Computer Science Engineering — Sanjay Ghodawat Institute, Kolhapur

2024-28 | Current

Higher Secondary (12th Grade, PCM) — Walchand Collage Of Arts & Science

61.20%

Secondary School (10th Grade) — Vasantrao Gopinat Patil High School

89.80%
