PROFESSIONAL SUMMARY

Computer Science Engineering student specializing in the development of AI-powered, scalable web applications using **Python, React, and JavaScript**. Proven track record in designing intelligent systems, including an Smart Health Care and Management System. One-time national hackathon winner focused on solving complex real-world problems through **Generative AI** and modern software engineering principles.

TECHNICAL SKILLS

Programming: Python, Java, C, JavaScript (ES6+)
Web Development: React (Vite), HTML5, CSS3, Responsive UI/UX Design
AI & Automation: Prompt Engineering, LLM Integration, Machine Learning Fundamentals
Tools & Dev: Git, GitHub, REST APIs, Microsoft 365 Copilot, Linux, VS Code

PROFESSIONAL EXPERIENCE

Internshala Student Partner (ISP) -

Jul 2025 – Aug 2026

- Selected among top student representatives to promote internship and online training opportunities across campus on behalf of Internshala (80,000+ brand network).
- Drove peer outreach and awareness campaigns educating college students about career development through internships and skill-based online trainings.
- Collaborated with Internshala's growth team as a campus ambassador, contributing to student engagement initiatives aligned with the company's vision.

Data Science Intern Cognifyz Technologies -

Dec 2025 – Jan 2026

- Worked on end-to-end data pipelines — collecting, cleaning, and preprocessing complex datasets to ensure data quality and readiness for analysis.
- Analyzed large datasets to extract actionable insights, supporting the development of intelligent, data-driven business solutions.

PROJECTS

Arogya Vahini — Rural Healthcare Referral Platform

React, Node.js, REST APIs

- Engineered a healthcare referral ecosystem connecting rural patients with medical providers, scaled to support **500+ users**.
- Streamlined patient registration and referral tracking, which **reduced the administrative workload by 40%**.

Smart Health Management System (Arogya360)

JavaScript, Python, CSS3

- Arogya360 helps patients, doctors, clinics, and hospitals access **essential healthcare services** more efficiently.
- The system focuses on usability, accessibility, and **digital healthcare awareness** while creating a strong foundation for a complete **healthcare ecosystem**.

ACHIEVEMENTS & CERTIFICATIONS

Winner

- Techpravartan 2025 Mini Hackathon:** Ranked 1st among 30+ teams in a 12-hour build sprint.
- Built and refined a functional solution through rapid brainstorming, iteration, and hands-on development
- Recognized for delivering a practical, innovative solution with strong execution and team synergy

EDUCATION

B.Tech in Computer Science Engineering

Sanjay Ghodawat Institute, Kolhapur

2024 – 2028

Current

Higher Secondary (12th Grade, PCM) — Walchand Collage Of Arts & Science

61.20%

Secondary School (10th Grade) — Vasantrao Gopinat Patil High School

89.80%
